Alila's owner holds the land next door; the villa compound is someone else's

Alila Villas Uluwatu, the adjacent landbank, the PT. JKSB site office and the gated villa compound on Jl. Belimbing Sari II, Pecatu, Kuta Selatan, Badung

Prepared by Invest Indo Group · 7 October 2026

IN SHORT

The resort and the big open land beside it answer to the same man. Alila Villas Uluwatu is owned by **PT Bukit Uluwatu Villa Tbk (BUVA)**, controlled at about 67% by **Happy Hapsoro** through PT Nusantara Utama Investama, while Hyatt owns and operates the Alila brand. In November 2025 BUVA bought **PT Bukit Permai Properti** from Summarecon for **Rp536bn**, gaining about **19.3 ha directly adjacent to Alila**, roughly three times the resort's footprint, and has committed **Rp390bn** to an "Uluwatu Estate" (roads, art gallery, nature park, sports facilities) due **Q4 2028**. So construction next to Alila fits a funded plan, but **no filing names a contractor** and **PT. JKSB has no public footprint**. The gated compound north of Alila is a separate private enclave of large group-rental villas: **its owners are not publicly identified**, the "wealthy Jakarta owners" story is unverified, and nothing ties it to BUVA.

One listed group controls the resort and the land beside it

BUVA, a Jakarta-listed developer, owns the resort; Hyatt took the Alila brand when it bought Two Roads Hospitality in 2018, and BUVA sold its brand-company stake in that deal. Since 2025 BUVA has been assembling land around the resort, including one plot bought from another Hapsoro-controlled company, which made it a disclosed related-party deal.

ASSET / DEAL	WHAT IT IS	VALUE	STATUS
PT Bukit Permai Properti	About 19.3 ha in Pecatu directly adjacent to Alila; bought from Summarecon units	Rp536bn	Closed Nov 2025
"Uluwatu Estate" build-out	Roads, art gallery, nature park and sports facilities on that land	Rp390bn	Due Q4 2028
Pecatu land, 8,395 m²	Three plots from PT Erlangga Prakarsa Mulia Sentosa, also Hapsoro-controlled	Rp65.6bn	Signed Apr 2026
PT Royal Uluwatu Residence	Share purchase funded by the Oct–Nov 2026 rights issue	Rp199bn	Target Dec 2026

The site office is unidentified; the link is plausible, not proven

We found no public record of a "PT JKSB" in Bali; it is most likely a small local contractor, an abbreviation or a joint venture. Its timing and location match the Uluwatu Estate build-out, but neither BUVA's disclosures nor press coverage names a contractor. The project board at the gate, which must list the owner, contractor and PBG permit number, would settle it.

The gated compound is a separate private enclave

Off Jl. Alila Villas and Jl. Belimbing Sari II sit large group-rental villas, including **Ocean View Uluwatu** (15 bedrooms, up to 30 guests, listed as "managed by Villa Uluwatu") and **Grand Villa Uluwatu** (12 bedrooms on a plot of about 2,000 m²). Owners are not publicly identified; one guest review names a host couple, which does not establish title. We found no link to BUVA, Hapsoro or Summarecon.

What it means for investors

Read-through

A Rp1.5tn rights issue and a funded estate next to Alila point to a premium master-planned district. Expect construction traffic and upward pressure on nearby land values through 2028, and watch for BUVA residential launches.

To verify before any deal

Site project board (owner, contractor, PBG no.) · BPN Badung or PPAT title check on compound plots · AHU registry search on any PT named · BUVA stock-exchange filings for contractor awards.
